

NHS Enhanced Summary Care Record with additional information

If you are registered with a GP practice in England you will have a core Summary Care Record (SCR), unless you have previously chosen not to have one. It includes important information about your health:

- Medicines you are taking
- Allergies you suffer from
- Any bad reactions to medicines

You can also choose to have additional information included in your SCR, which can enhance the care you receive. This information includes:

- Your illnesses and health problems
- Operations and vaccinations you have had in the past
- How you would like to be treated – such as where you would prefer to receive care
- What support you might need
- Who should be contacted for more information about you

Healthcare leads across Leicester, Leicestershire & Rutland recommend that all patients sign up. You may need to be treated by health and care professionals who do not know your medical history. Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs. Having an enhanced SCR can help the staff caring for you access information more quickly, enabling them to make better and safer decisions about your treatment.

What to do next

If you would like your SCR to be enhanced with additional information (or the SCR of someone you are a carer for), then please complete this form, to be returned to your GP surgery.

Name of patient:

Date of birth: Patient's postcode:

Surgery name and location:
